PROFESSIONAL SUMMARY

Software Engineer with 3+ years of experience developing and maintaining enterprise applications in aerospace, defense and industrial environments. Experience across backend services, user interfaces, system integration and containerized deployments using Java, C++, React, TypeScript, Docker, Kubernetes and OpenShift. Interested in building reliable software, collaborating across disciplines and growing in an international engineering team.

PROFESSIONAL EXPERIENCE

Software Engineer | ALTEN | Cádiz, Spain | 2023–Present

- Develop and maintain enterprise software solutions for aerospace and defense clients.
- Contribute to backend services and microservices using Java and C++ in distributed software environments.
- Build and maintain React-based interfaces and integrate systems through REST APIs.
- Work with containerized applications using Docker, Kubernetes and OpenShift.
- Collaborate with multidisciplinary engineering teams and produce technical documentation.

Software Development Intern | ALTEN | 2023 (6 months)

- Supported Digital Twin and C4IP projects; developed React, JavaScript and TypeScript components.
- Contributed to C++ development, containerized environments, testing and technical documentation.

Software Development Intern | Surcontrol | 2023 (2 months)

- Developed, tested and debugged C++ software components for industrial production environments.

TECHNICAL SKILLS

Languages: Java, TypeScript, JavaScript, C++, Python, SQL

Application development: REST APIs, microservices, Node.js, React, Next.js, HTML, CSS

Infrastructure & tools: Docker, Kubernetes, Red Hat OpenShift, Linux, Git, GitHub

Data & practices: PostgreSQL, MySQL, system integration, software testing, Agile/Scrum

SELECTED PROJECTS

WalletBill – Personal Finance Platform: Personal software project using React and Tailwind CSS.

San Juan Album Website: Promotional web project using Next.js and TypeScript.

EDUCATION

Master’s Degree in Cybersecurity – International University of La Rioja (2025–2026)

Bachelor’s Degree in Computer Engineering – University of Cádiz (2017–2024)

LANGUAGES & ADDITIONAL TRAINING

Spanish: Native | English: B2 (Aptis) | French: B1

Cisco networking coursework: CCNA Introduction to Networks (2020); CCNP Implementing IP Routing (2021).
