Professional Profile

Software Engineer with 3+ years of experience developing enterprise applications in aerospace, defense, and industrial environments. Experienced in Java, TypeScript, React, Docker, Kubernetes, and OpenShift, with a strong background in software architecture, system integration, and technical documentation. Currently pursuing a Master's Degree in Cybersecurity, with interests in secure software development, cloud-native technologies, and distributed systems.

Work Experience**Software Engineer**

Alten Soluciones Productos Auditoría e Ingeniería SAU, El Puerto de Santa María, Cádiz (2023 - Present)

- Design, develop and maintain enterprise software solutions for aerospace and defense clients.
- Develop backend services and microservices using Java and C++ within distributed software architectures.
- Develop and maintain frontend applications and user interfaces using React.
- Integrate enterprise systems and applications through REST APIs.
- Deploy and maintain containerized applications using Docker, Kubernetes and OpenShift.
- Produce technical documentation and collaborate with multidisciplinary engineering teams.

Software Development Intern

Alten Soluciones Productos Auditoría e Ingeniería SAU, El Puerto de Santa María, Cádiz (2023, 6 months)

- Contributed to Digital Twin and C4IP projects within the aerospace and defense sector.
- Developed frontend components using React.js, JavaScript and TypeScript.
- Worked with Docker and Kubernetes in containerized environments.
- Participated in software development activities using C++.
- Produced technical documentation and supported testing and validation activities.

Software Development Intern

Surcontrol, El Puerto de Santa María, Cádiz (2023, 2 months)

- Contributed to software development activities in industrial production environments.
- Developed and tested software components using C++.
- Participated in debugging, validation and quality assurance activities.

- Produced technical documentation and collaborated with multidisciplinary engineering teams.
-

Selected Projects

[WalletBill](#) – Personal Finance Platform | React, TailwindCSS

[San Juan Album Website](#) - Promotional Website | Next.js, TypeScript

Academic Background

International University of La Rioja (Online)

Master's Degree in Cybersecurity (2025 - 2026)

School of Engineering, University of Cádiz

Bachelor's Degree in Computer Engineering (2017 - 2024)

Certifications and Additional Courses

- **CCNP Routing & Switching Route:** Implementing IP Routing, Cisco (Online, 2021)
 - **CCNA Routing & Switching:** Introduction to Networks, Cisco (Online, 2020)
-

Core Technologies

- **Languages:** Java, TypeScript, JavaScript, C++, Python, SQL
 - **Backend:** Java, Node.js, REST APIs, GraphQL, Microservices
 - **Frontend:** React.js, Next.js, TypeScript, HTML, CSS
 - **Cloud & Containers:** Docker, Kubernetes, Red Hat OpenShift
 - **Databases:** PostgreSQL, MySQL
 - **Software Engineering:** Software Architecture, System Integration, Agile (Scrum), Technical Documentation, Software Testing
 - **Cybersecurity:** Secure Software Development, OWASP, Risk Assessment, ISO 27001, NIST
 - **Tools:** Git, GitHub, Linux
-

Languages

- **Spanish:** Native
- **English:** Professional Working Proficiency (B2)
- **French:** Limited Working Proficiency (B1)
